- ▶ **5.1. Telpiskums mākslas darbā. Kā plaknē attēlot telpiskumu, izmantojot perspektīvas likumus?**

Jēdzieni: perspektīva, horizonta līnija, gaisa perspektīva, krāsu perspektīva, lineārā perspektīva, satekpunkts.

- ▶ **Komplekss sasniedzamais rezultāts:**

Apzinās perspektīvas likumsakarības kā vizuālu sakarību sistēmu telpiskuma atveidošanai plaknē. (K.6.2.1.; K.6.3.2.; K.6.1.1.)

Sasniedzamie rezultāti

- Lineārā perspektīva ir zinātniski pamatota sistēma, kas rada dziļuma ilūziju plaknē. (K.Li.3.)
- Perspektīvai ir dažādi veidi, un mākslinieki var tos kombinēt, lai divdimensionālā plaknē panāktu telpiskuma izjūtu. (K.Li.3.)
- Uz divdimensiju virsmas trešo dimensiju - dziļumu -panāk ar perspektīvas palīdzību. (K.Li.3.)

My Autumn Story Description of a Character

This is a little witch. Her name is Agatha. She likes autumn very much. Her birthday is on Halloween in autumn. On this day, her magic is especially powerful. Besides autumn is very beautiful and she likes to fly above the forests and enjoy the nature colours.

She is small and nice, as a witch can be. :) She is wearing a violet dress and a big violet hat. Her tiny shoes are also violet. She likes this colour. She usually has a broom in her hand to fly away from other eyes.

Agatha lives in a small village close to the nature and far away from the human eyes. But she likes to fly to the cities and to organize some surprises for people.
